DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9, 11-19 and 22-24 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claims 1-14 is the inclusion of the limitation of processing the input data to generate verified performance data which includes calculating an average daily performance of the turbine. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reason for the allowance of claim 15 is the inclusion of the limitation of processing the input data to generate verified performance data which includes: determining an invalidity of a first utilized calculation; determining the validity of a second utilized calculation; and using the second calculation in substitution for the first utilized calculation to generate the verified performance data. It is this limitation found in the claim, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes this claim allowable over the prior art.

The primary reason for the allowance of claims 16-19 is the inclusion of the limitation of the processing portion which includes: determining an invalidity of a first

utilized calculation; determining the validity of a second utilized calculation; and wherein the calculation engine uses the second calculation in substitution for the first utilized calculation to generate the verified performance data. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or suggested by the prior art of record which makes these claims allowable over the prior art.

The primary reasons for the allowance of claim 22 are the inclusion of the limitation that said step of determining the validity of the calculated performance data further includes determining a base load condition of the turbine, and the inclusion of the limitation that said step of processing the input data to generate verified performance data further includes: determining an invalidity of a first utilized calculation; determining the validity of a second utilized calculation; and using the second calculation in substitution for the first utilized calculation to generate the verified performance data. It is these limitations found in the claim, as they are claimed in the combination, that have not been found, taught or suggested by the prior art of record which make this claim allowable over the prior art.

The primary reason for the allowance of claims 23 and 24 is the inclusion of the limitation of the processing portion comprising determining an invalidity of a first utilized calculation, determining the validity of a second utilized calculation, and wherein the calculation engine uses the second calculation in substitution for the first utilized calculation to generate the verified performance data. It is this limitation found in each of the claims, as it is claimed in the combination, that has not been found, taught or
